### REASONS FOR ALLOWANCE

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The above mention claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the limitations in independent claim 1, and the subsequent dependent claims.

The CPA does not teach or suggest a method for generating a shared key in an MQV key generation protocol, wherein the key is computed by a first correspondent computing a first simultaneous exponentiation of a first exponent with a second short term public key and a second exponent with a second long term public key.

The present invention provides the following advantages over the prior art shared secret key computation methods:

- 1) optimization of the MQV shared secret key computation by using simultaneous exponentiation.

Thus, this invention provides an optimization of the MQV shared secret key computation by using simultaneous exponentiation, the recognizes that the same can be done by rearranging particular terms in the MQV protocol for efficient computation using a simultaneous exponentiation technique.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
